

Since launching in Abu Dhabi in December 2022, the WeRide and Uber Robotaxi fleet has tripled in size. Both companies aim to continue growing their fleet in partnership with ADGM, with plans to extend services into Ras Al Khaima (RAK), Ajman, and other areas of emirate Abu Dhabi. The joint WeRide and Uber Robotaxi service is the Middle East's leading Robotaxi and DFR service. It is a partnership between advanced autonomous vehicles for robotaxi services and the city of Abu Dhabi, which is a regulatory and operational partner. The service is currently operating in the city center, with plans to expand to other areas of the emirate.

The WeRide and Uber Robotaxi service is the Middle East's leading Robotaxi and DFR service. It is a partnership between advanced autonomous vehicles for robotaxi services and the city of Abu Dhabi, which is a regulatory and operational partner. The service is currently operating in the city center, with plans to expand to other areas of the emirate.

The expansion plans for the WeRide and Uber Robotaxi service are part of a broader strategy to expand the service across the emirate. The companies are currently in discussions with ADGM and other stakeholders to explore new areas for service expansion. The expansion plans are subject to regulatory approval and other factors.
